

An item costs \$370 before tax, and the sales tax is \$33.30. What is the sales tax rate in a percentage

You would simply do $33.3/370$, which results in 0.09. Converting that to a percentage you get that the sales tax is 9%. $(33.30/370)*100 = \% ..$

Does segregation still exist in America

The mean represents the typical value in a set of data for what type of? distribution? Choose the correct answer below.

A.

For distributions that are bimodal

B.

For distributions that are skewed

C.

For all distributions

D.

For distributions that are roughly symmetric

Which element's atomic radius increases the most in size when it becomes ionized? A. Sodium B. Chlorine C. Fluorine D. Lithium

Which of the following departments would be included in a state government's public safety function? A. Department of Education B. Department of Emergency Management C. Department of Environmental Protection D. Department of Banking and Consumer Finance

The measure of an angle of an isosceles triangle is 30° , the shorter side is 20 in. Find a distance from point P to the vertex of a triangle, if P is equidistant from all vertices.

What mountains are formed by the collision of the Indo Australian plate?

What drove African American and Mexican migration north? How did World War I facilitate these changes? How was this migration significant?

What is the approximate volume of this cylinder? (Use $\pi = 3.14$.) Cylinder 16 cm by 24 cm.

A. 200.96 m³

B. 602.88 m³

C. 1205.76 m³

D. 4823.04 m³

I need some help please :)

Why is chemical energy a part of all chemical reactions?

How many degrees of freedom does each of the following systems have? (Answer as a number, i.e., 1, 2, 3, etc.) 1. Liquid water in equilibrium with its vapor?

2. Liquid water in equilibrium with a mixture of water vapor and nitrogen?

3. A liquid solution of alcohol in water in equilibrium with its vapor?

You're an average, moderately active adult female. Therefore, you should consume approximately _____ calories and 60 grams of fat.

Although women have made great strides over the last century, they only make up a small percentage of people earning degrees in psychology. Please select the best answer from the choices provided T F

Building a linked list forward places the new item to be added at the beginning of the linked list. True

False

Is it possible for a nation to remain neutral in global economies?

Why do religious economists believe that competition among secular viewpoints and many religions leads to increased participation in religion in modern societies?

Box A has a volume of 12 cubic meters. Box B is similar to box A. To create Box B, Box A's dimensions were multiplied by five. What is the volume of Box B? A) 60 m^3

B) 300 m^3

C) $1,500 \text{ m}^3$

D) $7,500 \text{ m}^3$

Identify the correct charge of each atomic particle A. Electron=positive;proton=negative;neutron=no charge

B. Electron=negative;proton=positive;neutron=no charge

C. Electron=no charge;proton=negative;neutron=positive

D. Electron=negative;proton=no charge ;neutron=positive

How many possible genetic variations can be produced during meiosis and sexual reproduction?

1. [Home](#)
2. [More Solution](#)
