

# How are the four functions of language interrelated?

Define Evaluate Influence Reflect

The Hohokam people irrigated the desert to \_\_\_\_\_. develop farmland create parks grow a forest improve trade routes

What happened during the Boston Massacre in 1770? A. Redcoats chased colonists into the water causing six to drown?

B. Colonists opened fire on one another over disagreements about the British?

C. British troops fired on colonists for the first time killing five?

D. Redcoats and colonists opened fire on one another in a field outside Boston where hundreds were killed ?

A projectile is launched upward from ground level with an intentional speed of 98 m/s. How high will it go? when will it return to the ground?

Which health skill has to do with your reaction to stress

A number with two decimal places is multiplied by a whole number. The product has only two digits. How can you follow the correct procedure for placing the decimal point in the product.

WHAT CAUSES THE MOVEMENT OF THESE AIR PARTICLES IN SOUND WAVES? here are choices.....

(A) pitch

(B) solar energy

(C) vibrations

(D) wave length

this also comes with.....

irregular repeating sound waves cause particles to move that create noise.

movement of air particles caused by repeating waves produces musical notes.

Which sentence presents a faulty either/or argument? If we don't double teachers' salaries, then the public education system in this country will fail.

If we value education as much as we claim, we should put our money where our mouth is and raise teachers' salaries.

Increasing teacher salaries might attract more competent individuals to the profession.

Perhaps more teachers would continue to teach, rather than leave the field, if their salaries were higher.

PLEASE!!!!!! Help ASAP!!!!!! 2. Heath wants 10 L of a solution that is 90% bleach. He will combine pure bleach with a mixture that is 20% bleach.

(a) Write a system of equations to model the problem. Use  $p$  for the number of liters of pure bleach and  $m$  for the number of liters of the mixture that is 20% bleach.

(b) Solve the system. Show your work. How many liters of pure bleach will Heath use? How many liters of the 20% mixture will he use?

Write two methods: encrypt and decrypt. encrypt should take as input a string, and return an encrypted version of it according to the rules above. To encrypt the string, you would: - Convert the string to uppercase. - Replace all Js with Is. - Remove all non-letter characters. - Add an X to the end if the length is odd. - Break the string into character pairs. - Replace the second letter of any same-character pair with X (e.g. LL -> LX). - Encrypt it. decrypt should, in turn, take as input a string and return the unencrypted version, just undoing the last step. You don't need to worry about Js and Is, duplicate letters, or odd numbers of characters in decrypt. For example: encrypt("PS. Hello, world") -> "QLGRQTVZIBTYQZ" decrypt("QLGRQTVZIBTYQZ") -> "PSHELXOWORLDSX" HINT: You might find it easier if you implement some helper functions, like a find\_letter function that returns the row and column of a letter in the cipher.

Arrange  $6x^2 - 2x^4 + 4 + 3x$  in standard form. I get the idea but I'm not sure...

Options:

$$-2x^4 + 6x^2 + 3x + 4$$

$$-2x^4 + 3x + 6x^2 + 4$$

$$6x^2 + 4 + 3x - 2x^4$$

$$4 + 3x + 6x^2 - 2x^4$$

Transitions that introduce a new idea are called \_\_\_\_\_. sequential transitions

causal transitions

adversative transitions

additive transitions

Two bone cells located in the periosteum and endosteum are

If there is an 8% tax on a \$1.00 item what is the total amount of the transaction

What do sebaceous glands secrete?

Identify the correct sentence. a. in the morning, you'll find a copy, of the newspaper outside your door.

b. in the morning, you'll find a copy of the newspaper outside your door.

c. in the morning, you'll find a copy of the newspaper, outside your door.

d. in the morning you'll find a copy of the newspaper outside your door.

A punch recipe that requires 2 cups of cranberry juice to make 3 gallons of punch using the same recipe, what is the amount of cranberry juice needed for 1 gallon of punch?

How did the fugitive slave act of 1850 effect the Northern abolitionists?

What is better for the sd card use as portable storage or use as internal storage?

1. [Home](#)
2. [More Solution](#)
